PC600

Affordable Touch Screen
Time & Attendance System

Full color, touch screen time! Lathem's PayClock PC600 System automatically calculates worked hours including overtime as well as providing the tracking of benefit time for 50 employees (and can be easily expanded to 150). Using Windows CE technology, it allows employees the option of department transfers, as well as the ability for supervisors to communicate via messaging after an employee clocks in and much more.

Cut payroll preparation time in half with the PayClock PC600 System!

- Eliminates the use of paper time cards and time sheets
- Calculates regular and overtime hours automatically
- Enforces payroll and attendance rules fairly and impartially
- Eliminates user mistakes and time calculation errors
- Reduces time theft and unauthorized overtime
- Saves 2-3% of total payroll cost
